The TANAP consortium has defined the overland contractors.

# TANAP consortium decides on contractors

İSTANBUL - Dogan News Agency

The consortium of the Trans Anatolian Natural Gas Pipeline (TANAP) has made a decision regarding the contractors for the pipeline's overland construction, the consortium announced in a written statement yesterday.

The winners are Fenas Construction, the Sicim-Yüksel-Akkord consortium and Tekfen Construction, said the statement.

Tekfen Holding said yesterday its construction unit Tekfen Construction secured a \$565 million deal as part of TANAP in a statement to the Public Disclosure Platform (KAP).

The deal will involve building a 509 km (316 miles) section of the 56-inch pipeline and will be completed in three years, Tekfen said.

The TANAP project envisages gas transportation from Azerbaijan's Shah Deniz II
